

100B.23 Training center facilities — advanced training — inspections.

1. Each training center is required to have the facilities listed on the application in section 100B.22. In addition, each training center assigned an area of advanced training as specified in section 100B.22 is required to have facilities to support instruction in its area of advanced training. These facilities shall include facilities and structures to support full-scale training exercises in such area of advanced training as recommended or required by any applicable state or national training facility standards.

2. The bureau shall inspect the facilities of each training center to ensure compliance with the requirements of this section.
